

WARM A. P. A. DEBATE
ON INDIAN SCHOOLSTOPIC OF DISCUSSION IN THE
HOUSE.Ruger Advanced to Major General At
Once By the Promotion of Schofield
Exciting Scene At the Night Ses-
sion—Senate Proceedings Not of
Importance.

WASHINGTON, Jan. 19.—In the house yesterday after some unimportant business, consideration of the Indian bill was resumed and Mr. Weadock (dem., Mich.) offered an amendment to the proviso that only 80 per cent of the Indian school appropriation should go to the contract schools and providing for a 20 per cent reduction each year thereafter until the discontinuance of contract schools, so as to further provide that "in making such contracts preference shall be given to such schools as have given satisfaction in the past and now have contracts with the Indian bureau and desire to renew them."

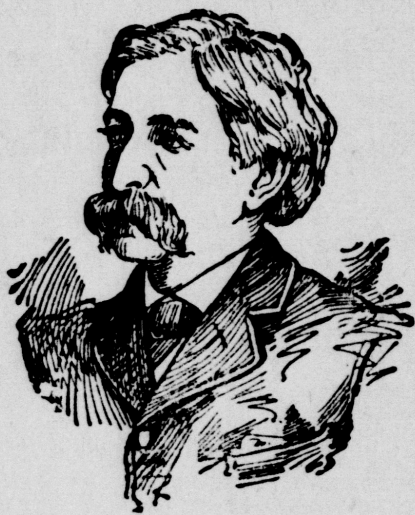

Mr. Holman made a point of order against the amendment, but it was overruled.

The whole proposition relative to Indian schools by an arrangement was allowed to go over. Mr. Weadock also offered an amendment to increase the appropriation provided in the bill for the construction and repairs of school buildings from \$40,000 to \$200,000. At this point the discussion drifted into religious matter, Mr. Grosvenor (rep., Ohio) in a fiery speech denouncing attacks made upon him by the American Protective association. Without further action the committee rose and at 4:20 the house took a recess until 8 o'clock. The evening session was devoted to the consideration of private pension bills, and the exciting scenes of a week ago were re-enacted, the opposition of southern members to the passage of the bills calling forth most bitter criticisms from northern congressmen in charge of the measures. The adjournment of the house took place when several personal conflicts seemed imminent.

DEBS HEARING POSTPONED.

Supreme Court Deliberating on the
Question of Bail.

WASHINGTON, Jan. 19.—In the habeas corpus proceedings in the case of Eugene V. Debs and others concerned in the Chicago strike, the government, acting through Assistant Attorney General Whitney, and Attorney Darrow, acting for Debs and his associates yesterday presented a stipulation to the United States Su-

CHIEF JUSTICE FULLER.

preme court agreeing to postpone the argument of the case until the 25th of March and agreeing that in the meantime the prisoners shall be admitted to bail in the sum of \$2,000 each.

Chief Justice Fuller stated on behalf of the court that the matter was of such importance that it would be necessary that the court should have opportunity for consultation before acting upon the stipulation with regard to bail. The agreement therefore was taken under advisement.

NEW DEAL FOR RICKS.

Judiciary Committee Votes to Reopen
His Case.

WASHINGTON, Jan. 19.—The judiciary committee of the house held a long session yesterday over the Ricks case. Representative Bailey of Texas presented the majority report, drawn by himself, which advised the impeachment of the judge, and Representative Broderick the minority report, which declared there were no grounds for the charges made against Judge Ricks. The friends of Judge Ricks endeavored to reverse the decision of the previous meeting; finally the committee decided by a vote of 7 to 5 to reopen the case by extending an invitation to Judge Ricks to appear before them, if he so desired, with his witnesses, and to give a like invitation to the other side. This action was taken on motion of Mr. Harrison of Alabama, who refrained from voting at the last meeting. Representative Bailey's report was discussed at length and several amendments were offered and voted upon. The members who have stood with Mr. Bailey for impeachment regard the vote as a practical defeat so far as action by this congress is concerned. An attempt will be made to push to matter to an issue, but it is generally admitted the time is too short to conduct impeachment proceedings before the adjournment.

Contest Over the Japanese Treaty.

WASHINGTON, Jan. 19.—More opposition was developed in the executive session yesterday towards the Japanese treaty than had been expected by its friends. The principal objection made to the treaty was

directed at the portion giving to Japan the advantages of a favored nation, and the condition was made by several senators that the wording of the treaty was such as to fasten it upon the country for a term of not less than fifteen years should abrogation be opposed by Japan. Senator Morgan defended the treaty at length, but when he discovered the opposition suggested the postponement of further consideration until next Friday, which suggestion was adopted.

Gen. Schofield Advanced in Rank.
WASHINGTON, Jan. 19.—The senate yesterday passed the army appropriation bill, carrying \$23,000,000, and the bill which in effect advances Gen. Schofield, in command of the army, to the rank of lieutenant-general, held by Gen. Sherman and Gen. Sheridan. Aside from this the day was given to the debate on the Nicaraguan canal. Mr. Morgan, in charge of the measure, sought to fix a time for bringing the question to a vote, but without success, and the tedious discussion goes on with little prospect of a speedy vote. At 5 o'clock the senate adjourned.

Broker Chapman Placed in Custody.

WASHINGTON, Jan. 19.—Broker Elverson R. Chapman of New York city, who with two other brokers and two newspaper men was indicted for refusal to answer inquiries of the senate sugar investigating committee, yesterday was placed nominally in the custody of the United States marshal. A test case has been made out in the United States Supreme court and application will be made next week to hear the case on petition for habeas corpus. Proceedings in the cases of the others will be governed largely by this case.

Cattle Embargo Extended.

WASHINGTON, Jan. 19.—The state department has been informed that the Hamburg authorities have forbidden importation of cattle and swine from England and Ireland.

Few Bonds Undelivered.

WASHINGTON, Jan. 19.—There still remains undelivered of the second bond issue \$15,000 bonds. They were paid for several months ago, and of course are earning interest.

DUN ON THE TRADE REVIEW.

Outlook Not Reported to be Encouraging
—Wages Do Not Advance.

NEW YORK, Jan. 19.—R. G. Dun & Co.'s weekly review of trade says: There are some good signs, but they do not as yet extend to business generally, which hesitates much as it has done for months. Gold continues to go abroad, \$3,550,000 having gone this week, and the deficit of revenue is already over \$9,500,000 for the month. This state of facts, with the failure of congress to make provision of borrowing or for increasing revenue, still operates to retard a wholesome recovery, and the volume of domestic trade represented by exchanges rough clearing houses is again about 7 per cent larger than last year, as it was in the first week of the month, but is 33.7 per cent smaller than two years ago, a higher rate of decrease than for some time past. The industries are meeting a larger demand for some products since the new year began, but rather less for others and no definite improvement appears in prices of manufactured products or in wages. In the main, it is a waiting condition, with much hope that positive improvement is not far off, but not very satisfactory evidence of it as yet.

Wheat has sagged off one cent again with western receipts only about one half last year's. The department's estimate of 400,000,000 bushels, against less than 400,000,000 earlier in the season, points to a probability that the commercial estimates have been nearer the fact.

Corn has declined 1½ cents in spite of the very low government estimate of yield, receipts being now larger than of wheat. Cotton has remained steady at 5½ cents, with a fairly large movement, but efforts of southern planters to contract the acreage this year receive some attention. Petroleum has touched \$1 again in nominal price, but without activity.

In wool there are fairly large dealings, 10,678,815 pounds in January thus far, as against 11,857,800 in 1894, much of the increase being in foreign wool. Considerable sales of carpet wool are reported and a better demand for territory, while Ohio XX is quoted at 17 cents. The important London sale of Australian has caused some hesitation. While there is much waiting in this industry, there is evidently a hopeful demonstration to meet foreign competition. Failures for the week have been 333 in the United States against 407 last year, and sixty in Canada against forty-six last year.

Illinois Mine Burning.

SPRING VALLEY, Ill., Jan. 19.—Shaft No. 1 of the Spring Valley mine is again on fire, the miners having been driven from the shaft by the smoke and flames. This is the same shaft that was on fire last November with a resulting loss of \$50,000. The miners will be thrown out of work for probably three months.

Convicts' Indeterminate Sentences.

LANSING, Mich., Jan. 19.—The most important measure thus far passed by either branch of the legislature passed the house yesterday—a joint resolution providing for the submission to the people at the spring election of a proposition to amend the constitution so as to provide for indeterminate sentences for convicts.

HAWAIIAN REBELS
FLEE IN TERRORUPRISING HAS BEEN CRUSHED
BY DOLE.

Minister Thurston Says the Most Serious Trouble Is At An End But This Declaration Is Not Fully Supported By Newspaper Dispatches.

WASHINGTON, Jan. 19.—Thurston's official dispatches from President Dole of Hawaii, today, says that the rebellion is broken. The leaders and their remaining followers are fugitives in the mountains. Secretary Gresham and Secretary Herbert had a long conference in the president's mansion this morning on Hawaiian affairs.

SAN FRANCISCO, Cal., Jan. 19.—The steamer Alameda arrived from Auckland and Sydney, via Honolulu, yesterday afternoon, and brings news of a revolution and bloodshed at Honolulu. Charles L. Carter, who was one of the annexation commissioners, was killed, and other government supporters were wounded. There has been much fighting and at least twelve natives have been killed. Nearly 200 revolutionists are under arrest. Robert Wilcox is the leader of the rebels.

SANFORD B. DOLE.

The fighting was still in progress when the Alameda left Honolulu, Jan. 11, but the government forces had practically overcome the revolutionists. Up to 4 p. m. Tuesday thirty-four of Honolulu's prominent royalists, not including natives, were under arrest. At midnight the remaining rebels were being pursued in every direction by small squads of police, the troops returning to the barracks during the night, their clothing torn and their dilapidated appearance showing the effects of their hard trip. The steamer Keanhou, which was sent to the islands of Maui and Hawaii to ascertain the condition of affairs there, has returned with the news that everything was quiet.

THURSTON GIVES HIS OPINION.

Thinks This Is a Bad Time for Trouble
to Come in Hawaii.

WASHINGTON, Jan. 19.—Minister Thurston was seen at the Hawaiian embassy last evening and said he had not received any information from the consul-general of his republic of San Francisco.

"From what I have heard from the islands recently I do not believe any of the better class of people of Honolulu can be induced to take sides against the government, for they must be convinced by this time how futile such an attempt would be. Rifles are the arms with which the government forces are equipped, and besides there are upwards of sixteen galling guns in the neighborhood of the government buildings, all in condition for immediate use. There is not the slightest doubt in the mind of any official of the government as to its ability to cope with any insurrection that may originate in the islands. All my advices from the home office are to this effect and hence I am not particularly alarmed about the reports of a revolution. Such a proceeding could not gain much headway with men like President Dole and his cabinet at the helm, with a capable, well equipped force behind them."

No American Ship at the Islands.

WASHINGTON, Jan. 19.—Secretary Herbert was seen last evening and said he had received no news from Hawaii further than the press dispatches from San Francisco and was inclined to doubt the extent of the reported uprising. No doubt an American ship of war will be dispatched to the islands at once and permanently stationed there. It is understood that Minister Willis several times has urged on the United States government the advisability of the United States having a war vessel in Hawaiian waters continually.

Secretary Gresham Hears the News.

WASHINGTON, Jan. 19.—Secretary Gresham is inclined to treat the Honolulu war news as a rumor. The secretary of state declared he had received absolutely no news of the outbreak. The news from Hawaii has created widespread excitement in Washington. The secretary of state would express no opinion either as to the effect of the news or the probable results in the islands, preferring to wait for official advices.

Running Down the Train Robbers.

OTTUMWA, Iowa, Jan. 19.—A man named Bateman has been arrested at Moberly, Mo., for the recent train robbery here. Officers are in pursuit of another man named Ely. The evidence is strong against them.

RIOTS IN BROOKLYN
TOO BIG FOR POLICEMILITIA THE ONLY RELIANCE
OF THE CITY.

Civil Officers Have Proven Powerless To Cope With Mobs Of Such Extensive Proportions—General Strike Of the Trades Probably Will Be Ordered.

BROOKLYN, Jan. 19.—There has been rioting all day and the situation is serious. Troops are guarding all the power houses. The police are almost powerless and the militia will aid them. There will probably be a general strike of the trades. The whole of the Second Brigade of the National Guard is under arms this morning. This includes the Third, Forty-seventh and Fourteenth regiments. Mayor Schieren made a requisition last evening upon Brig.-Gen. James McAleer for 700 or 800 of the Brooklyn militia to be in readiness to-day to help run the Brooklyn trolley cars. Every police captain in the city was called to police headquarters at 9 o'clock last evening to receive special instruction concerning the plan of action for to-day. The soldiers were ready for action before daylight. The regiments are to remain in the armories subject to further orders. The call is for twenty-four hours' service, but this, of course, will be extended if necessary.

It was reported early yesterday morning that the calling out of the troops might precipitate a general strike of all Knights of Labor in the city and in this case the cablemen would certainly go out. The strikers now number in all some 5,000 men. Their sympathizers are probably as many more. The police force is only 1,700 and it is impossible for them to take care of such a mob as can be gathered by the strikers at any one place. There was no bloodshed yesterday, but stone throwing was general and cars were stopped and returned to the barns whenever sent out. In the present temper of the strikers the situation is critical.

BIG FIRE AT MACON, GA.

Loss on Four Business Houses Burned
Will Exceed \$500,000.

MACON, Ga., Jan. 19.—The largest fire in the city's history broke out here at 7:30 o'clock last night in the wholesale dry goods house of S. Waxelbaum & Son. The flames were bursting from the roof when the firemen reached the scene. The Waxelbaum building and its contents were quickly destroyed and the flames spread to the store of the American Shoe Brokers, thence to the Dunlap Hardware company's establishment, and were threatening the wholesale dry goods house of J. Dannenberger & Co. when put under control. Aid was asked from Atlanta and Augusta, but before response had been received the local firemen had mastered the fire. Its origin is unknown. The total loss is estimated at \$500,000.

To Investigate Minnesota Finances.

ST. PAUL, Minn., Jan. 19.—In the house yesterday Mr. Feig called up his resolution to investigate the financial status of all public funds which are alleged to be deposited for the benefit of public officials having them in charge. Mr. Feig said this investigation is not intended for persecution, nor should a whitewash be permitted. These reports of illegal gains by state or other public treasurers gave the amount as from \$150,000 to \$250,000; the reports showed over \$300,000 of state funds deposited in banks that have failed. He wanted proof of the truth or falsity of the charges. Feig resolution was adopted without change on roll call by 107 yeas, no negative vote being cast.

Lively Fight with Montreal Mob.

MONTREAL, Jan. 19.—Montreal narrowly escaped serious riot and bloodshed yesterday afternoon, and had it not been for the effective work of the police the results would have been serious. A mob of idle men which had been surging around the city hall since morning toward 1 o'clock grew turbulent and had to be dispersed by the police with drawn clubs. No blood was shed.

Will Be War in Mexico.

NEW YORK, Jan. 19.—A special dispatch from the City of Mexico says it has been semi-officially announced that Guatemala has rejected the demands of Mexico. This republic insisted that Guatemala should make amends for the invasion of Mexican territory and destruction of the logging camps, indemnity for the damage done, indemnity for the expenses caused by the mobilization of Mexican forces on the frontier of Guatemala, and the conclusion of a boundary survey in accordance with the treaty of 1882. A war is now looked upon as inevitable.

The Minnesota Senatorship.

ST. PAUL, Minn., Jan. 19.—The caucus held last night for the nomination of a United States senator to succeed W. D. Washburn took six ballots and adjourned at midnight without definite result. Unless another caucus, which nobody expects now, is called, the contest will be transferred to the legislature, which will begin balloting Tuesday next. Friends of Senator Washburn are not so confident now of his election, Gov. Nelson showing a gain on every vote

UNION PACIFIC SUED

Foreclosure Proceedings Begun in St.
Louis Today.

St. Louis, Jan. 19.—The suit of foreclosure against the Union Pacific was filed in the federal court today.

OMAHA, Neb., Jan. 19.—John M. Thurston, John C. Cowin and Attorney Kelly of the legal department of the Union Pacific left for St. Louis last night to be present at the first step in the foreclosure proceedings against the "Overland." The bill is a cumbersome piece of legal machinery and involves the entire range of legal action. Could foreclosure have been resisted and the government debt adjusted, it would have benefited the whole western country. What will occur under foreclosure is a matter of conjecture.

In the Nebraska legislature yesterday Smith of Holt county again attempted to carry through the house a resolution directing Nebraska's representatives in congress to vote for the foreclosure of the government mortgage on the Union Pacific. The matter provoked a heated debate, in which Davies of Cass and Sutton of Douglas opposed the resolution. The resolution was finally tabled by a vote of 71 to 25.

FITZSIMMONS IS HELD

He Must Stand Trial for Killing Reardon.

SYRACUSE, Jan. 19.—The grand jury this morning indicted Bob Fitzsimmons, the pugilist, for manslaughter in the first degree, because of the killing of Con. Reardon, his sparring partner. Reardon was killed by a blow in an exhibition boxing-match, but his death was declared to be due to his poor condition.

INDIANAPOLIS, Ind., Jan. 19.—The bill to suppress prize fighting and aimed at Roby, was introduced in the legislature yesterday by Representative Dinwiddie of Lake county. This is the measure which Judge Gillette prepared under instructions from Gov. Matthews. The bill imposes a penalty of from one to two years' imprisonment on any one at all connected with such contest. It met with unanimous approval and will undoubtedly pass.

NEW YORK, Jan. 19.—The glove contest that took place at the Seaside Athletic club at Coney Island last night between Jack Dempsey and Tommy Ryan turned out a fizzle. Dempsey was in no condition to fight and after two rounds, in which Ryan had everything his own way, Referee Hurst separated the men and awarded the bout to Ryan.

ILLINOIS LEGISLATURE.

Routine Proceedings in Upper and Lower
Houses.

SPRINGFIELD, Ill., Jan. 19.—In the senate yesterday bills were introduced as follows: By Hamer—Amending the criminal law by providing a penalty for the adulteration of food of animals. By Berry—Providing for the appointment of a guardian for girls at the Home for Juvenile Offenders, so they can be allowed to leave the institution. By Evans—Appropriating \$360,000 for the payment of expenses of National Guard incurred during strike of 1894. By Templeton—For the prevention of blindness in infants, providing that nurses report the discovery of any inflammation in eyelids to some practicing physician or to the board of health, and providing a penalty; also a bill providing for per diem fees and salaries of circuit clerks, making the law applicable in smaller counties; also to repeal the law indemnifying owners of property damaged by mobs and riots. The senate adjourned until Monday at 5 o'clock. There was no business in the house.

DEATH LIST IS GROWING.

Fifty-three Victims of Butte (Mont.)
Explosion Identified.

BUTTE, Mont., Jan. 19.—Hour after hour the disaster has been putting on more distressing proportions and it now looks as if the real weight and extent of the terrible calamity would never be known. The list of known dead had increased to fifty-three and there are at least four in the hospitals who can not recover. Others are also believed to be fatally injured.

To the list of missing the name of Charles Hoffbauer was to-day added. A few hours before the explosion he was up town and purchased a pair of shoes and on his way home he evidently stopped at the fire. One of the new shoes he had under his arm has been found badly torn a quarter of a mile from the scene of the catastrophe, but not a fragment of Hoffbauer has been found. He was about 28 years of age and unmarried. Included in the list of fifty-three to-day are the four missing firemen: Dave Moses, Sam Ash, P. J. Norling, Edward Sloan. In the minds of those who visited the scene after the explosion there is no doubt that many were blown to atoms who will never be heard of.

Five Intermediate Penitentiaries.

INDIANAPOLIS, Ind., Jan. 19.—Senator Schneck introduced a bill yesterday that arranges for the establishment of five intermediate penitentiaries to be distributed evenly throughout the state. They will be for the benefit of young convicts sent up for minor offenses. The libel bill, allowing the preponderance of evidence to stand as a justification for printing a damaging article was reported upon favorably.

BOGUS NOTES USED
BY A CALF BUYERAUGUST TIMMING IS IN JAIL AT
ELKHORN.

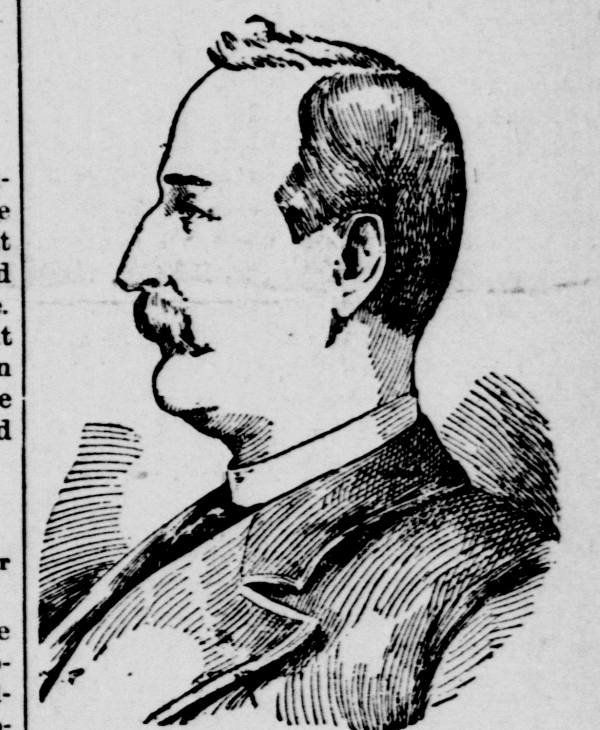

The Amount of the Forgeries Laid at His Door Is \$360—Delavan Banks Discounted the Paper—Whisky Is Responsible He Says—Other Charges Made.

ELKHORN, Jan. 19.—August Timming, the North Walworth calf buyer, is in jail here on a charge of forgery. It is charged that in December he negotiated notes at Delavan banks to which the names of responsible persons were signed, to the amount of \$360. Then he went to Chicago, ostensibly to make collections. A letter written from that city, to one of the banks, aroused suspicion and a messenger made inquiry of the persons whose names were on the paper and was informed that the signatures were forgeries. Thinking that he could fix matters up, he returned to Delavan and was arrested. In default of bail he is now in a cell. It is also claimed that Timming sold forged paper to the Burlington bank, and at Harvard and Dundee, Ill., but this he stoutly denies. Timming is respectively connected, has a wife and children, who feel the blow keenly. He says whisky is responsible.

FRANCE IS TRANQUIL.

Stability of Republican Form of Govern-
ment Assured.

PARIS, Jan. 19.—The royalists are especially active at Bordeaux. They have posted up portraits of the duke of Orleans on the walls, and have distributed from house to house pictures of the late count of Paris and his son and biographical notices of the latter. The words "vive le duc d'Orleans!" "vive le roi de France!" were also chanted up in many places. Prince Victor Napoleon is keenly watching events from his residence in Brussels. The election of M. Felix Faure to the presidency has been well received

M. FELIX FAURE.

by the moderate press and is violently criticised by the radical and socialist newspapers.

Paris was very tranquil last night. The boulevards were no more crowded than usual and the suburbs were not excited. The working classes were astonished at M. Brisson's defeat, but no demonstrations were reported. The police force was held in readiness for an emergency, but their services were not required for anything further than the usual police duties.

A meeting of socialists and others took place last evening at the Maison du Peuple, at which a number of exciting speeches were made. Resolutions strongly condemning M. Felix Faure were adopted and other resolutions demanding the suppression of the vice-presidency were passed amid cries of "Vive la revolution sociale! Down with reaction!"

French President's Religion.

PARIS, Jan. 19.—The radical and socialist papers have already begun to denounce the new president. It is asserted in Versailles that M. Faure is a Protestant. M. Faure himself, however, has repeatedly declared himself a Catholic.

Dissected a Live Man.

CITY OF MEXICO, Jan. 19.—The people of Texcoco are greatly excited over the dissection of a peon named Antonio Vangose while still alive. While a medical student was making the dissection of the supposed corpse writhed in agony and sprang to its feet, shouting, "Don't kill me." The dissector endeavored to put back pieces of flesh and sew up the incisions. The effort was of no avail and the man was a genuine corpse in two days.

Montana Legislators Threatened.

HELENA, Mont., Jan. 19.—The house has adopted a resolution to investigate threats made against the Silver Bow members because they voted for Thomas H. Carter for senator. They have received a letter signed "James Melan, chairman committee," calling them "bribe takers" and "traitors," and warning them that an oathbound band of thirteen, among whom, the latter alleges, are no traitors, awaits their return to Butte.

Four Men Killed.

ALTO, Texas, Jan. 19.—Four men were killed by the explosion of a boiler at Manuel Hamilton's sawmill. Seven miles east of here. The dead are: Tobe Richards, Alexander Lewis, Will Lewis and Abner Lee.

AFTER \$348,680,330 IN TWO CENT STAMPS

EASTERNE ASKS JANESVILLE FIRMS TO FORM A "CHAIN."

There is a Widow and Her Children To Be Relieved, But the Relief Asked For Includes All the Wealth Of the Known World and Almost Everything Else.

Different Janesville concerns got another bunch of letters today like the following which is published as received.

CHICAGO, JAN. 16. MESSRS BLANK & BLANK, JANESVILLE, My Dear Sirs:—The object of this is to interest you in the welfare of a poor family, consisting of a widowed mother and four young children left absolutely destitute and in their behalf we have started this chain, in which your aid is kindly asked.

Make three copies of this letter as we have done, only change the date and put the next highest number at the top, numbering them all the same, and sign your name. Return this letter with a new postage stamp at Box 341 Boston, Mass. Also the name and address of the three persons you write to, and they in return are asked to do the same thing. Any one not wishing to do this is asked to return this letter to Box 341 Boston, that it may be known that the chain is broken. Although, this may seem a small thing to you, any breaking of the chain will involve a loss to the enterprise. The person receiving number fifty will please return the letter direct, without making any copies, as that ends the chain. Respectfully

JOHN C. DEAN.

Anybody Likely to Bite.

This cheerful device has been employed in a limited circle many times, but "box 341" seems anxious to make money in larger lumps.

He bids fair to succeed.

It seems such a trifling thing to do; to send a two-cent postage stamp to a certain address, and to have a clerk make three copies of a letter and send them to three addresses of business correspondents. At the first glance one would think that anybody ought to do that much for charity; especially for the "widow and orphan" who are dexterously introduced. But the recipient of this letter had curiosity enough to sit down and figure up results until the total appalled him.

Receipts of \$69,736,066 on One Mail.

Assuming that the person who started the "chain," wrote three letters as is probable; that each recipient wrote three, as requested, and so on down the list, each series increasing over the preceding by the multiple of three, we find that, in the seventeenth series only, there would be written and sent 129,140,863 letters, or nearly two to each man, woman and child in the United States. If the plan were carried down to the twentieth series, and if each person addressed in that series alone were to send a two cent postage stamp to Boston, the receipts from that single mail, for the widow's benefit, to say nothing of all that had come in from correspondents belonging to preceding series would be \$69,736,066.02; a rather comfortable income for a needy family.

How The Wealth Piles Up.

In order that this should be collected, however, each correspondent must spend ten cents; six cents for stamps for the three letters that he is to send out to keep up the chain, two cents for the letter to Boston, and two cents for the widow. Therefore, as the twentieth series would include 3,486,803,301 persons, if there were so many in the world, the total cost of collecting the widow's fund would be \$348,680,330. At the twenty-fifth series the number of correspondents would amount to over \$40,000,000,000; and as the fiftieth series would be the square of that number, it will appear that if the chain could be carried through without a break the widow would be in the possession of all the wealth of the known world, together with that of a number of other planets equally as well furnished as ours. Colonel Sellers never conceived a scheme with as many "millions in it" as this. No wonder the Janesville correspondent broke the chain.

Special Tax Notice.

State of Wisconsin, county of Rock, ss. Jan. 16, 1895. To whom it may concern. I hereby give notice that I intend to make application to the circuit court for the county of Rock on the first day of the January term to be held in the court room in the city of Janesville on the 28th of January 1895, at 10 o'clock a. m. of that day or as soon thereafter as the same can be heard for a judgment against the several lots, lands, pieces and parcels of lands described in a report there and then to be made and filed with the clerk of said court for the unpaid special taxes for paving East and West Milwaukee, streets loved by the common council of the city of Janesville in the year 1894, and all persons interested therein are requested to attend such term of said court and offer their defense, if any they may have, to such application.

JAS. A. FATHERS,
Treas. City of Janesville.

LOTS OF FUN IF YOU LOOK FOR IT

Lockjaw, Sea Serpents, Three Moons At Once, and Other Attractions.

This is a merry old winter, despite its variations. A Kansas City girl is suffering from lockjaw caused by gum chewing. Three moons have been seen in Illinois. A judge acquitted an accused man, because, being the father of ten children, he had suffered enough. Thirty reputable citizens of Michigan affirm they saw a fresh water sea monster skating on the ice. Louisville, Ky., threatens to banquet the man who exclaimed last summer, "Is it hot enough for you?" New York is reaching out for other cities to reform. And yet there are a few caloric calams who think life is not worth living.

NOTES FOR THE LEAF MEN.

The first sales of the '94 crop in this vicinity have been made this week.

The growers are still waiting for casing weather to remove hanging tobacco.

The dealers have been stirring out more tobacco than for some time past.

TRADE among the packers has not picked up much since the holidays, and transactions are confined mainly to small lots.

THE deliveries indicate, however, that buying is becoming more general, though the sales are confined to old goods largely.

A GOOD deal of riding has possibly been done with a view of gaining some pointers and securing samples of the new crop.

It is said that O. A. Peterson of Orfordville, the well known tobacco man, has rented the Farmer's warehouse of that village.

SANFORD SOVERHILL, of Soverhill & Porter, left Monday for Minneapolis and other western points, in the interest of his firm.

GEORGE MITCHELSON, of the leaf firm of Mitchelson & Spencer of St. Paul, stopped off in the markets of the state for a few days this week on his way to Cuba to purchase Havana stock.

A January Fan Sale.

A queer combination, yet its just what will take place, commencing Monday morning, at which time we will place on sale over 1,000 beautiful sample fans, comprising an importer's complete showing of every style of a fan—gauze fans, satin fans, silk fans, plain fans, hand-painted fans, lace fans, spangled fans, costume fans to match all shades. Not one in the line that's not a gem, and they will be on sale (the January sale makes it so) at half price. Notice a few of them in the window.

ARCHIE REID & CO.

Before a Full Head of Steam

Is gathered by that tremendously destructive engine, malaria, put on the breaks with Hostetter's Stomach Bitters, which will check its progress and avert disaster. Chills and fever, bilious remittent, drunk again and again, are promptly relieved and ultimately cured by this genial specific, which is also a comprehensive family medicine, speedily useful in case of dyspepsia, biliousness, constipation, sick headache, nervousness, rheumatism and neuralgia. Against the hurtful effects of sudden changes of temperature, exposure to hot weather, close application to laborious mental pursuits, any other influences prejudicial to health, it is a most trustworthy safeguard. It fortifies the system against disease, promotes appetite and sleep, and hastens convalescence after debilitating and flesh wasting diseases.

A COMBINATION for zero weather, a January fan sale as per local elsewhere in tonight's issue. Archie Reid & Co.

FAMILIES DRAW AID WHILE HAVING CASH

JANESVILLE IMPOSTERS CALL UPON CITY OFFICIALS.

One Family Buys New Parlor Furniture and Relies For Clothing and Food Upon the Associated Charities—Poormaster Kenyon Is Kept Very Busy.

Poverty is pinching and crowding into close quarters, more than one Janesville family. It is no less a fact that there are many imposters right here who work the relief committee for pecuniary gain rather than for the necessities with which to feed the hungry.

A few nights ago a kind hearted alderman heard of a case where a family was in sore need of assistance. The head of the family was able-bodied and willing to work, it was said, but could find nothing to do. The family was out of provisions, and had nothing to eat for nearly a week.

"I thought it strange that a family right here in the center of the city should be suffering for the want of food," said I. C. Brownell afterward, "so I called at the home. I found the home warm, there were two fires burning, one a coal fire and one a wood fire. The woman was busy washing when I called, and she left the tub, to talk to me. 'Well, times are pretty hard just now,' said she in answer to my question, 'but we are getting along all right. We have to be saving, though, for my husband can find very little to do to earn money. We have plenty to eat, and I think we are able to get through the winter.'"

Relieved By Alderman Winslow.

Alderman Winslow had a case sent to him the other day by one of the ladies of the Associated Charities.

"This family has nothing to eat, nor nothing to wear; they are without fuel to burn, and I wish you would supply them as you have more relief money than we have," said the Associated Charity lady in her note.

The alderman took it for granted that the family were really destitute and sent them everything they wanted to eat.

"I sent them coal, food and warm clothes," said the alderman today, "and I thought I was doing a kind and Godly act. A day or two after this lady came in and told me how the family was getting along. She told me she had visited the family."

"See here," said the poor woman, "what nice things Mr. Winslow sent us. He gave us lots of good things to eat, and ever so much good warm underclothes. We saved a little money of our own and now that we have clothing enough I am going down town and buy some nice furniture for our parlor."

Food Given to a Boarding House

"But the toughest case I have met this winter came to me from Mayor Thoroughgood," continued Alderman Winslow. "The mayor who was never known to neglect the poor sent a woman over to me with a note which said, 'This woman is very poor, has a large family and is really in need of food. Please give her a good supply, and if you have no funds in your possession, charge the bill to me and I will pay it.'"

"I didn't stop to question the woman, but gave her a good supply of provisions and sent them to her home. It was two or three days before we discovered that she was keeping a boarding house, had five regular boarders, and furnished meals for fifteen cents."

Poormaster Kenyon, too, has varied experiences in distributing aid, and is frequently imposed upon.

"There is a heavy call for aid this winter," said he, "but not as much as I expected. Frequently applications are made by people whom I know are abundantly able to provide for themselves. An imposter seldom calls the second time for aid."

Gossip From Magnolia.

MAGNOLIA, January 18.—The meetings at the Advent church have been well attended. Rev. Orrin Jenks of Minneapolis assisted by Elder Hatch held the congregation spell bound. Fifteen conversions were made. Miss Jennie Clark of Monticello is visiting friends in this place. Notwithstanding the unfavorable weather of Saturday Gardner & Spoon shipped a carload of fine carriages and coach horses to Chicago. In the consignment was noticed some horses of speed one being "Rowdy Roy," purchased of M. Broderick, of Evansville; also "Mack Phalmon," bought of Brodhead parties. George Bahr is on the sick list with inflammation of the bowels. Many are the disappointments for those contemplating sleigh rides. The Modern Woodmen will give an oyster supper at the hall Friday evening of this week, and a good time is expected. The Methodists will soon commence a series of meetings in this place.

HAHN'S ARMY HELD ON A RIOT CHARGE

FIVE WILL BE TRIED BY JUDGE BENNETT

While the Others Were Set Free On the Examination—Wisconsin the Pioneer Leaf State—Farmers Make the Best Of Present Opportunities—Nearby News.

William J. Hahn and his four backers will be tried before Judge Bennett at Monroe on the charge of riot. The circumstances of the case in which N. B. Robinson & Company attempted to levy on a carload of beer are well remembered. The examination of the men before Court Commissioner Luschinger of Monroe which has been going on for two or three days was concluded last night and William J. Hahn, Martin Tilly, James Lloyd, James Montgomery, Edward Dorr and Adrian Gosling, all of Albany, were held to at the next term of the Green county Circuit court, to answer to the charge of riot and resisting an officer. No testimony was submitted by the defense. N. B. Robinson was one of the state's witnesses.

This State Raised Leaf First.

The discussion as to who raised the first tobacco in Wisconsin, promises to develop the fact that Wisconsin was really the pioneer state. Statements of crops grown in 1853 and 1851 have brought the following statement from E. F. Parkinson. He says: "Thomas Cringer raised tobacco on Duke's prairie, town of Fayette, La Fayette county, territory of Wisconsin, in the year 1846; and it was as fine and large tobacco as any now grown in the state."

The Hired Man Came In Handy.

Thomas Bealand of Little Prairie, near Delavan, was going down into a well he and the hired man were clearing, on a rope. There was no one at the brakes and Bealand shot down like a rocket. Luckily for him he landed on the shoulders of the hired man, who was at the bottom of the well, and escaped injury. The hired man is sore.

Hanson Wasn't Born Fortunate.

The unluckiest man in the United States lives in Lake Geneva. He lost an eye a while ago. Then he was robbed by some highwaymen, who nearly beat the life out of him, and last week he was thrown from a load of hay and had a leg broken. When he gets out he expects to be killed.

Bounty Put on Crows and "Chucks."

The county board of La Fayette county at their last session at Darlington passed a resolution giving a bounty of twenty cents for each crow and woodchuck killed, on the ground that crows eat corn and "chucks" dig holes that cattle would step into and break their legs.

Wolves in Walworth County.

Wolves are quite plentiful in the north part of Walworth county and in some instances they have attacked the farmers' sheep folds. The ruralists are after them with muskets in hope of reaping the reward offered by the county.

Davis Was a Cheap Mat.

Thomas Davis, who served the Farmers' Insurance Company of Sugar Creek as president for twenty years, for which he has never received a copper, thinks it is worth \$5 a year, and presented his bill accordingly at the last meeting which was allowed.

Baptist 'Em Nearer Home.

The Seventh Day Baptist church at Walworth has heretofore utilized Geneva lake for baptismal purposes. But the long distance and frequent journeys to that Jorfor have led them to build a baptistry in the church.

South Clinton Milk Spilled.

Martin Samson, who drives one of Mr. Gilbertson's South Clinton milk wagons, spilled some four hundred pounds of milk the other morning for Ed. Westby, by knocking over the platform that the cans stood on.

Hog's Windpipe Plugged.

J. C. Trotter of Oregon, killed a fat hog which had a stick ten inches in length and about one half inch thick lodged in its windpipe and was still able to get along all right.

ALL OVER THE GLOBE

Dr. Pierce's Pleasant Pellets are known. They are far more effective in arousing the liver to action than the old-fashioned cathartic pills, calomel or other preparations, and are purely vegetable and perfectly harmless in any condition of the system. No care is required while using them.

They cure biliousness, sick headache, costiveness, sour stomach, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Montgomery, Orange Co., N. Y.
DR. PIERCE: Dear Sir—I suffered untold misery with bleeding piles. I could get no relief night or day, until I commenced using your "Pleasant Pellets," and now for two years or more, I have not been troubled with the piles; if my bowels get in a constipated condition, I take a dose of Dr. Pierce's Pleasant Pellets, and the trouble is all dispelled by next day.

GET AT THE ESSENTIALS FIRST.

The Chicago Herald suggests that, in view of the necessity of a closure rule in the senate, if the transaction of business is not to be impeded, and minority substituted for majority rule, the legislatures of the several states which are now about to choose senators should pass resolutions requiring the men whom they may select to vote for such a rule when they take their seats in the senate. This is going rather far afield. The legislatures of the several states, we may be sure, are busy with far other considerations this moment than the thought that the successful candidate for the senate should be pledged to support a particular form of parliamentary procedure. The stagnant commerce, the unemployed millions, the depressed business of the country call for a remedy before much attention is paid to red tape. As for "expediting" congressional work the republicans have never lacked ability to devise methods that fit the needs of the moment.

THE VEST MONSTROSITY.

What your Missouri financier can accomplish when he bends his gigantic intellect to the task of concocting a compromise on the currency question, is seen in the new currency bill introduced by Mr. Vest. It will serve the same purpose as the illustrations in the weekly comic papers; a caricature being sometimes a useful medium for pointing out weaknesses and absurdities.

The brewers seem to have as good a hold upon the democrats as the sugar trust. Although the treasury is running behind every day and the increase of the internal revenue tax on beer offers an immediate, easy and costless way to increase the revenue the democrats refuse to adopt it.

It's a good thing Speaker Crisp isn't a hard drinker, or his recent assertion, that the democrats had carried out all their promises, would have made people suspicious of his soberness at the time.

Two men willing to be the presidential candidate of the populists have already been found in the persons of Waite of Colorado, and Coxey of Ohio and the Commonwealth.

Thomas H. Carter will, after the 4th of next March be one of Montana's representatives in the United States senate. Where's the man who said Tom was a back number?

Mr. Cleveland no longer speaks of it as his congress, nor does he complain of having "congress on my hands." What he does say cannot be printed in a family paper.

This country may follow the European fashion and indulge in a cabinet crisis in the near future, unless all signs are at fault.

The administration's appeal to the republican senators for aid will not be productive until the Fifty-fourth congress assembles.

Murder Will Out.

Several years ago the rush of immigration was for the western prairie lands, where droughts, hot winds, cyclones and blizzards were plenty. No water; no fuel; low prices for products and high prices for everything a person had to buy. Times have changed and The C. S. Graves Land Company, Janesville, Wisconsin, have an advertisement in this paper offering land in Central Wisconsin well supplied with food and good water and centrally located for all the great markets North, South, East and West, with good school privileges. The best of farm land can be had from \$5 to \$10 per acre and on easy terms.

An Interesting Memorial.

One of the most important events of what is known in colonial history as the French war was the capture of Louisbourg, on the island of Cape Breton, N. S., by General William Pepperell at the head of 4,000 men. It is now proposed to erect a memorial monument at Louisbourg to commemorate the one hundred and fiftieth anniversary of the victory of the colonial forces. The project is in the hands of the Society of Colonial Wars. The monument will be a plain Doric shaft of red or gray granite. It will be erected on the very spot where General Pepperell received the keys of the fortress.

Favors Constitutional Convention.

PIERRE, S. D., Jan. 19.—The senate yesterday began by passing, with a vote of 42 to 1, Senator Boyce's bill for a constitutional convention. In the house a bill providing that outside insurance companies shall not place fire insurance in this state except through resident agents, licensed by the state auditor, passed. A bill raising the exemption of personal property to \$100 and providing each person shall list all of his personal property with the county auditor was indefinitely postponed.

Senators by a direct vote of the people. The election of United States senators by the United States constitution of the United States provided for an amendment to the constitution of the United States by a two-thirds vote of the congress and ratification by three-fourths of the states. The house yesterday adopted a concurrent resolution by Mr. Cullison calling on Kansas senators and representatives in Kansas to call a constitutional convention.

MIDWINTER CIRCUS AROUND THE DEPOT

CAR LOAD OF QUEER BEASTS WERE HERE.

Big Shipment of Animals for Ringling Brothers Passed Through—Fortnightly Club Met Last Night—First Pythian Social Held—Hospital Meeting Tuesday.

ALL kinds of sounds came from a car that was hauled through Janesville today. No wonder. In the car was a pair of llamas, a pair of East Indian antelopes, a female zebra, a pair of striped hyenas, an orang-outang, a gazelle and numerous small animals. They were consigned to the Ringling Brothers at Baraboo and another installment is expected in a few days.

BROWN BROS. & LINCOLN.

Muscle Development.

Some recent scientific researches, which can doubtless be trusted, show that the weight of muscles of animals was increased 40 per cent by a proper periodic application of an electric current, the growth being a true development of the muscle. According to this, it will now be possible to increase to order size of any desired muscle without tiresome gymnastic exercises by lying in a soft chair and having the current applied. This, we suggest, might be done at night by an automatic apparatus, thus saving time. Persons who are improperly developed may now be balanced or trued up. Muscles shrunken by age may now be made plump again. Calves which nature or exercise have failed to develop sufficiently will now no longer be a drawback to wearing knee breeches or the short bloomers of the female bicyclist. The question naturally suggests itself, What will happen if this process of developing muscles electrically is continued still longer? If some way is then found to develop the bones, the manufacture of giants by electrical means will be an easy matter.—Electrical World.

Lord Denman and His Hatter.

This odd story is told of the late Lord Denman, who, on being reminded by a west end hatter that a small account was "overdue," visited the shop and gave the manager a legal reply to the request for payment. "You state," he said solemnly as he stood over him, shaking his finger at him as though warning him to be careful, "that this account is overdue. Remember that a bill of exchange or bill of acceptance may become overdue, but a tradesman's account never. A gentleman pays when he thinks he will or when he has the money; but, to show that no ill feeling exists, I will pay the account and take another hat."—London Star.

DEATH PUT A STOP TO THE FUNERAL

G. W. STREET'S FATHER EXPIRES SUDDENLY.

While On Her Way East to Care For the Aged Invalid Mrs. Street Learned Of Her Husband's Demise—Her Sorrow Deepened.

There was death at both ends of the journey that Mrs. G. W. Street made from San Francisco to Chicago and her affliction summoned G. C. and C. C. McLean to the World's Fair City yesterday. George Washington Street, who was a brother of William Street of this city, was at the time of his death in charge of the Mare Island navy yards at San Francisco as chief naval constructionist. He graduated from the United States naval academy in 1883 and was sent to Mare Island during President Cleveland's first term. Previous to that appointment and shortly after his graduation he was sent to represent the government in the polytechnical school at Paris, where he graduated with high honors in 1890 and was complimented by the secretary of the navy in a letter for his brilliant work. Then he was made an assistant United States naval constructor and stationed in the New York navy-yard. While studying in Paris he met the woman whom he made his wife in 1891. They went to France last December and upon their return went to San Francisco, where Mr. Street reported for duty at the Union Iron Works as superintendent of war construction.

Called East by Sickness.

Then came the announcement of the dangerous illness of his father, Richard R. Street. Mrs. Street at once left for Chicago to help nurse him. She was about half way between the two cities, when she received a telegram telling her to return to San Francisco at once as her husband had been suddenly attacked by pneumonia. She at once turned back but before she reached the bedside, the husband to whom she had been wedded such a short time, had been called to the final home. The remains were prepared for burial and sent to Chicago. It was to attend this funeral that the Messrs. McLean visited that city yesterday but the services were not held. While the funeral party were in the house, the father breathed his last and the ceremonies were postponed in order that both farther and son might be buried together and the services will be held at 1 o'clock Saturday afternoon.

Jessie Turnbull.

Bright-eyed little Jessie Louise, daughter of Mr. and Mrs. Henry Turnbull, 8 Pease's Court, died this morning at 8 o'clock, of membranous croup, aged three years. The little sufferer was sick only one week. A few days ago the doctors were undecided as to the nature of the disease. Some pronounced it diphtheria, and consequently the house was placed under quarantine regulations. Sad indeed, was the home this afternoon when the remains were taken to Oak Hill and placed in the grave. The funeral was strictly private, although Dr. Halsey, of Court street church, attended, doing all he could to reconcile the afflicted parents.

Funeral of Mrs. Grogan.

The remains of Mrs. Catherine Grogan were buried in Mount Olivet this morning, funeral services, conducted Dean E. M. McGinnity, being held at St. Patrick's church at 9:30 o'clock. There was a large attendance, and many friends accompanied the funeral party to Mount Olivet. The pall bearers were Thomas Lynch, Michael Menchen, Martin Kennedy, Patrick McCafferty, Patrick Lillis and Michael Madden.

Thinks He Has Left the Country.

PIERRE, S. D., Jan. 18.—Gov. Mellette says he believes Taylor has left the country. During the last weeks of December Taylor took up a number of his private obligations. Mellette says Taylor has probably been short for a number of years, and instead of being the conservative business man he was universally considered to be he seems to have gone into every wildcat enterprise he could find and has been the tool of designing men. Mellette thinks Taylor did not carry away to exceed \$50,000.

Morganfield Returned to Virginia.

CINCINNATI, Jan. 19.—The Circuit court yesterday decided the appeal of Charles Morganfield, the alleged train robber, and affirmed the decision of Judge Wilson remanding him to the Virginia authorities. He was at once taken in a wagon on a cot to the Chesapeake and Ohio depot, and left for Virginia in charge of the sheriff of Stafford county on the noon train.

Entire Family Is Exterminated.

FAIRMONT, Minn., Jan. 19.—Sam G. Hotelling shot and killed his wife's father and mother and his wife last night. He came to Fairmont, about four miles from their home, bought a Winchester rifle, went back, and shot them. He then fled to an occupied house, where a sheriff's posse pursued and killed him. Domestic troubles were the cause of the killing.

BRIGHT YOUNG MAN DIED HERE

Clifford Bell of Walworth Called While in a Janesville Hospital.

A bright young man's life went out when Clifford W. Bell of Walworth died at the Janesville hospital. Young Bell had some ability in the line of designing and drawing, and had intended to fit himself for an architect, and had worked at carpenter work some time before commencing to study the scientific part of his chosen profession. Two years ago he fell and injured his spine. He got along pretty well for a time, and then began to get worse. His parents brought him to Janesville for treatment, but death came in spite of all that science could do for him.

BUSINESS MEN'S ASSOCIATION REACHING A CRISIS.

President Vankirk Asks Some Pointed Questions of the Members—Call For the Annual Meeting Next Monday Evening Issued by Secretary Valentine.

President Vankirk is anxious to know whether the Business Men's Association is to live or die. He wants this condition of uncertainty to end. The annual meeting is called for next Wednesday evening, Secretary Valentine's call reading:

The annual meeting of the Janesville Business Men's Association will be held at their rooms on Monday evening, January 21. Let every member attend, as business of importance will come before this meeting. R. VALENTINE, Sec'y.

President Vankirk asks: "Shall the association be maintained or shall it be sold out? Will its members, the business men of the city, contribute from their income their annual dues of less than two cents a day for its maintenance? This is the question that confronts its officers at the present time. No organization has ever done as much for the general welfare of this city as this in the past ten years. Business men ask yourselves this question: 'Can we afford to surrender the benefits we annually derive from its maintenance for so paltry an outlay?'"

Napoleon and Home Production.

Napoleon forbade the use of cotton or of foreign wood for the furniture of the imperial palaces. He desired that the people who were invited to the drawing rooms at court should dress only in silk, so as to encourage the Lyons manufactures. He declared war on Indian cashmeres, but his power was impotent against the tyranny of fashion and against routine. The emperor threatened the empress in vain that he would throw her cashmere shawls into the fire. The empress used to answer him that as soon as they could give her stuffs as light and warm as the cashmere woollens she would be very glad to wear them.

The emperor encouraged the manufacturers of French shawls and commissioned Isabeau to make the designs of a magnificent woolen stuff like cashmere on a white ground, with which a shawl and a dress were made. Marie Louise wore them with some reluctance. These stuffs had not the softness which they have since acquired. The empress used to complain with reason that her dress "griped" whenever she went near the fire.—Memoirs Baron de Meneval.

An Interesting Experiment.

Dr. Bloots requested 50 gentlemen and 50 ladies to write down 100 words each of their own selection. Out of the total number of 10,000 only 3,036 distinct words were found to have been chosen. Thus, for instance, all the ladies and gentlemen had put down the word "money," all the gentlemen the word "woman," all the ladies the words "dressmaker" and "glove," and all the ladies and 24 gentlemen the word "beautiful."—Verein-Zblatt.

A Big Dress Order.

"Women play odd tricks on one another sometimes," said a smart American woman the other day, "but the queerest I ever heard of was perpetrated by one social leader in a western city upon another. They were rivals and hated each other accordingly, though outwardly they preserved the semblance of pleasant relations. Every chance that either got to give a dig at the other was eagerly seized.

"But the final and most effective stroke, after which no calls were exchanged, was delivered by Mrs. L.—She sent out cards for a grand entertainment and then took pains to find out what Mrs. F.—, her competitor, was going to wear. A gorgeous pink brocaded satin was the material of Mrs. F.—'s gown, it was ascertained.

"Accordingly Mrs. L.—, whose husband was in the dry goods business, obtained several hundred yards of the same identical stuff and draped the walls of all the rooms on the lower floor of her house with it. You may imagine the feelings of Mrs. F.— on arriving in her superb new frock, which she expected to make a sensation. Naturally she ordered her carriage and drove away in tears."—London Tit-Bits.

The Best Way.

Stuffer—You know that girl who refused me? She has just insulted me by inviting me to dinner.

Dashaway—What are you going to do?

WHAT THEY ALL SAY.

Beautiful Women Give Some Wonderful Information Concerning Female Beauty. We do not think it will take women long to act upon this idea.

The poet and philosopher, Ralph Waldo Emerson says: "If eyes were made for seeing, then beauty is its own excuse for being." Beauty of feature and elegance of form have ever been the desire of the feminine mind. And its a perfectly laudable and natural ambition. Women were born to sway the hearts and minds of men as much by their beauty and attractiveness, as by the subtler charms of goodness and purity. And yet, how few women attain the beauty which should be theirs, and in those few who are beautiful, how quickly their beauty fades! This is wrong. Women are naturally beautiful—at least of pleasing and attractive appearance—and nearly all the cases where women lack these physical charms, the fault is their own. Good looks and beautiful forms are entirely dependent upon good health. One must have strong nerves and pure blood to be beautiful. Failing to have these, is to fail of good looks

and fine figure, and the woman who becomes broken in health, even in the slightest degree, will see her beauty gradually fade. The moment women realize this, that moment will they understand that physical beauty is a matter within their own control. And just how it is so, is told by Mrs. Frances Lytle, of 2 Hunter avenue, Rochester, N. Y. "I was very pale and delicate," she says, "and had no color, and had female weakness with leucorrhoea, and suffered great pain at my periods. I am now well, thanks to Dr. Greene's Nervura blood and nerve remedy. My face is plump and my cheeks red, and my complexion pure. When I began the use of this remedy, I only weighed 81 pounds, and now I weigh 115 pounds, and am still gaining. Dr. Greene's Nervura blood and nerve remedy is a wonderful medicine. I have not had any trouble since I began taking it."

Miss Emma Mariatt, of Oxford, N. J., says: "I have been a sufferer for ten years and the victim of a large tumor weighing twenty-eight pounds, which I had removed, and I suffered untold agony for many months after. I tried the skill of many physicians, all of whom utterly failed to give me any relief. I then used that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy, and after using a few bottles I was entirely cured. To those who have suffered from various diseases, and have failed to find any relief, I am, today, a living testimony and witness to the wonderful and marvelous curative powers of this great medicine. To persons suffering from various diseases, I earnestly recommend the use of this remedy; they would be cured. For further information I will willingly, cheerfully and promptly respond."

Miss Delia T. Shea, of 210 Lexington street, East Boston, Mass., makes the following statement: "About seven years ago I began to feel very uncomfortable after eating, so much so that I found it impossible to keep the lightest food on my stomach. I grew worse for three months, so I was obliged to give up work and go to the hospital. I tried many remedies and doctors, but they did me no good. A friend advised me to try Dr. Greene's Nervura blood and nerve remedy. I began using it, and after a week felt much better. When I had taken four bottles the weakness in my stomach was all gone, and I could eat anything without distress, while a short time before I found it impossible for weeks at a time to even drink a glass of milk and keep it on my stomach. I was unable to wear anything but a loose dress, and I did not go out of the house for months at a time. I am now cured of my troubles, and am well and strong. My cure is wonderful. Dr. Greene's Nervura blood and nerve remedy has done what the hospitals, doctors and other medicines could not do. It is a splendid medicine, and I urge every suffering person to use it. I love to think of the good it is doing, and wish everyone who is not perfectly well would take it."

TRICKS OF THE FAKIRS.
How They Had Worked the Connecticut Folks to Advantage.
A Middletown man found himself at a hotel in Derby, Conn., the other day waiting for a train. Seated around the stove were three fakirs. It appeared from their conversation that they had been working Ansonia, Derby, New Britain, Berlin and other towns, and one of them remarked that Middletown would be a good town to work. The first sold sarsaparilla for twenty-five cents a bottle, "regular dollar size." "I pull the people by claiming I can only sell two bottles in a family, and so make forty-two and one-fourth cents on the pair," he remarked. "How's that?" inquired the others. "Why, there's only three ingredients besides water—pure juice for coloring, quassia for bitter and yeast for sparkle. See? It's made in a room wherever I chance to be, and so saves lugging water from place to place." Fakir No. 2 was a corn doctor, and with a swagger and numerous sly leers at his auditors, thus delivered himself: "I can beat your scheme all holler. My salve don't cost a cent. It's made of soap, stolen at a hotel, scented with stolen perfumery and wrapped in stolen tinfoil. For grease extractor use a larger piece of stolen soap and scented with ammonia in-

A NARROW ESCAPE!

How it Happened.
The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. This was a relief of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all this is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130½. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.

Business is Business.
Two passengers on a western train became involved in a controversy, which waxed so hot that one of them called the other a liar.
"What's that, a liar?" and he was on his feet in an instant.
"Yes, a liar," was the emphatic response, "or my name ain't John Smith, of Smithville."
"What, the hardware merchant?"
"The same."
"Mr. Smith, I am delighted to meet you. I represent Mr. Sharpedge & Co., of New York, and can show you a line of samples that will make your hair curl."—Texas Siftings.

A Simpler Plan.
Mr. Newedd—Well, we are beginning housekeeping, and I presume the simplest plan will be for me to give you a regular amount every week for expenses. Just figure up what it will cost.
Mrs. Newedd—I could never do that in the world—so many things to count, you know; but let—me—see. Oh, I have it! I have thought of a much simpler plan.
"All right, my angel, what is it?"
"You figure up what it will cost you for carfare and lunches, and give me the rest."—N. Y. Weekly.

A Possibility.

Is that why Lisette dislikes me?
I cannot understand—
I only kissed her hand,
I deserved a reprimand;
But another notion strikes me,

Is that why Lisette dislikes me?

THERE were no competitive tests of baking powders at the Chicago World's Fair, and no "highest awards." All awards were of the same value, and "for an exhibit" only.

But here is the report of a series of competitive tests of baking powders

By the Official Food Authorities of Wisconsin.

This is of real value to the public, as it shows beyond dispute which of the many baking powders is the purest, strongest, and best:

"After examining many samples of the leading brands of baking powders, I have arrived at the conclusion that the ROYAL BAKING POWDER is superior in regard to purity, leavening power and keeping qualities.

"It is a cream of tartar powder, entirely free from alum, lime, ammonia, and all deleterious ingredients.

NOT A SPONGE.
He Didn't Want to Be a Burden Upon His Poor Relatives.
During the residence in New Orleans of Bishop John P. Newman of the Methodist Episcopal church, he was known in that city as a free and generous giver to charity. When the late war was at its height the bishop was constantly importuned for aid and as constantly gave it where the request was worth attention.
One day in the latter part of 1863 the bishop was busy on a sermon, when he received a request to visit the bedside of a man far out in the suburbs of the city. The name was new to him, he was very busy and wished to be excused. But no refusal would be taken and the bishop

Entered his carriage and drove to the man's house.
He had expected to find his petitioner in the last stages of disease, but, to his surprise, the man appeared in excellent health. The bishop then asked him if he desired spiritual counsel.
"No, Bishop Newman," the man proudly replied, "I don't want any of your advice. I'm a hard-shell Baptist and I'm all right. What I do want is \$100 to get to Natchez, where I have relatives."
Although somewhat startled by the brazen presumption of the man, the bishop ventured to say:
"Isn't \$100 considerable for a ticket to Natchez?"
"Well, yes, I suppose it is. But do you think I want to sponge on my poor relations after I get there?"
